

CEDRIC THOMAS Y. RAFANAN

Cebu City, 6000 • cedricrafanan27@gmail.com • (+63)9569945151

SUMMARY

Computer Science graduate (Cum Laude, GPA 1.55) from the University of San Carlos with hands-on experience in full-stack development and software automation. Built a published RAG framework (IEEE Xplore), improving retrieval performance by ~12%, and automated an internal HR workflow during a software development internship using React, TypeScript, and C#. Skilled in JavaScript, Python, and SQL, with a strong foundation in building and deploying real-world applications

EDUCATION

University of San Carlos

Bachelor of Science Major in Computer Science

GPA: 1.55, Dean's List 2022-2026, Cum Laude

Coursework: Data Structures, Algorithms, Software Engineering, Web & App Development

Talamban, Cebu

July 2026

Sacred Heart School Hijas de Jesus

Kindergarten - Senior High School

SHS General Average: 96

Cebu City

June 2022

INTERNSHIP EXPERIENCE

Alliance Software Incorporated

September 2025 – March 2026

Software Developer Intern

- Built an internal exit clearance system using React (Typescript) and C# that automated manual employee offboarding, reducing process time by ~25%.
- Engineered JWT-based authentication with role-based conditional rendering, giving HR admins and employees distinct access levels and eliminating unauthorized access to sensitive offboarding data.
- Presented system to stakeholders and worked closely with QA and ~15 employee testers to refine features, incorporating feedback ahead of company-wide rollout.

SKILLS

Programming Languages: C, JavaScript (React, Node, Express, Prisma), Python, SQL (MySQL)

Tools: Git & GitHub, Postman, MySQL Workbench, GitHub Copilot, Claude Code, Azure DevOps

Qualities: Goal-Oriented, Good Interpersonal Communication, Adaptable to New Environments, Attention to Detail

Languages: English (Fluent), Cebuano (Proficient)

UNIVERSITY PROJECTS

Retrieval Augmented Generation Framework (Thesis)

June 2025 – November 2025

Python, Milvus, Neo4J, Langchain

- Developed a hybrid RAG framework for financial data analysis, combining graph and vector-based retrieval with optimized preprocessing, boosting performance by ~12% over baseline methods.
- Official paper published on the IEEE Xplore Page
- https://github.com/Shabimbawa/RAG_Framework

Target Trial Emulation (Data Analytics)

Feb 2025 – Mar 2025

Jupyter Notebook

- Implemented a Target Trial Emulation simulation by translating R to Python and integrating clustering methods to enhance time-to-event simulations.
- <https://github.com/CedRaf/Target-Trial-Emulation>

Event Management System

Nov 2024 – Dec 2024

ReactJS, NodeJS, Express, Prisma, MySQL

- Built an event management system with a modern web stack, streamlining event scheduling and user access with Google Sign-In authentication.
- <https://github.com/CedRaf/Event-Management-System>

Mobile E-Commerce Application (Front-End)

May 2024

React Native, Expo Go

- Developed a mobile e-commerce application, emphasizing a responsive front-end interface for seamless product browsing and user interaction.
- <https://github.com/graysonLL/MobDev-Final-Project>

Inventory Management System

Oct 2023 – Dec 2023

ReactJS, NodeJS, Express, Prisma, MySQL

- Developed an inventory management system, focused on improving stock visibility and streamlining inventory operations.
- <https://github.com/CedRaf/Inventory-Management-System-Web2>

ACCOMPLISHMENTS

Tech, AI & Career Readiness Program - Vietnam Immersion

May 2026

AI Experience @ Global City

May 2026

ACDSA 2026 Conference - Thesis Presentation

February 2026

CISCO Cyber Security Essentials Certification

November 2024

PHILNITS FE Certification

October 2024

TESDA Programming (JAVA) NC II Certification

January 2024

CISCO CCNav7 Certification

December 2023
